

# Taking down and packing your Nordic tipi

BEFORE THE NORDIC TIPI IS TAKEN DOWN, CLOSE THE DOOR, VENTILATOR CAP AND AIR INTAKES. IF THERE IS AN INNER TENT OR FLOOR, IT DOES NOT NEED TO BE REMOVED.

TAKE DOWN THE NORDIC TIPI BY PULLING UP THE TENT PEGS AND REMOVING THE CENTRAL POLE.

SPREAD THE FABRIC OUT ON THE GROUND.

PUSH DOWN A TENT PEG THROUGH THE LOOP AT THE TOP OF THE NORDIC TIPI.

FOLD THE TENT FABRIC OVER, MAKING IT HALF AS BIG. BE CAREFUL WITH THE FIBREGLASS RODS AROUND THE SMOKE OPENING.

FOLD THE FABRIC SEVERAL TIMES TO MAKE IT THE RIGHT WIDTH.

USE THE FOLDED-UP CENTRAL POLE TO MEASURE THE RIGHT WIDTH.

ROLL THE FABRIC TIGHTLY AROUND THE CENTRAL POLE.
